CONTENTS

JULY

EDITORIAL: Multiple organ failure: from basic science to prevention 1
J. Bion and L. Strunin

MULTIPLE ORGAN FAILURE: FROM BASIC SCIENCE TO PREVENTION

Mechanisms of cell injury and death 3
J. P. Cobb, R. S. Hotchkiss, I. E. Karl and T. G. Buchman

The immuno-inflammatory cascade 11
H. F. Galley and N. R. Webster

Disturbance of leucocyte circulation and adhesion to the endothelium as factors in circulatory pathology 17
D. H. Adams and G. B. Nash

Molecular mechanisms of drug metabolism in the critically ill 32
G. R. Park

Determinants of splanchnic blood flow 50
J. Takala

Splanchnic ischaemia/reperfusion and multiple organ failure 59
W. L. Biffl and E. E. Moore

Determinants of intestinal barrier failure in critical illness 71
J. S. Aranow and M. P. Fink

Mechanisms of acute renal failure 82
C. J. Lote, L. Harper and C. O. S. Savage

Fulminant and late onset hepatic failure 90
A. E. S. Gimson

New approaches to acute lung injury 99
L. M. Bigatello and W. M. Zapol

Sepsis and cytokines: current status 110
T. S. Blackwell and J. W. Christman

Nutrition and immunonutrition 118
M. J. O'Leary and J. H. Coakley

CORRESPONDENCE

Pre-emptive analgesia with NSAID—what does it achieve? 128

Cytokine balance and immunosuppressive changes at cardiac surgery 129

Perioperative changes in α_1-acid glycoprotein concentrations 130

CBF in adults using near infrared spectroscopy (NIRS): potential for bedside measurement 131

Hypercoagulability induced by crystalloids 132

BOOK REVIEWS

Fibreoptic Guided Tracheal Intubation—A Practical Approach .. 133
Clinical Scenarios in Anaesthesia 133
The Cambridge Dictionary of Statistics in the Medical Sciences 133
The Massachusetts General Hospital Hand Book of Pain Management 134
Clinical Anaesthesiology—International Practice and Research—Obstetric Anaesthesia 134
Low Flow Anaesthesia 134
Total Burn Care 135

AUGUST

EDITORIAL: Transoesophageal echocardiography in anaesthesia and intensive care 137
J. N. Townend and P. Hutton

CLINICAL INVESTIGATIONS

Single bolus compared with a fractionated dose injection technique of bupivacaine for extradural Caesarean section: effect on uteroplacental and fetal haemodynamic state 140
J. Karinen, L. Mäkäräinen, S. Alahuhta, R. Jouppila and P. Jouppila

Spinal anaesthesia with 0.25% hyperbaric bupivacaine for Caesarean section: effects of volume 145
C. J. Chung, S. H. Bae, K. Y. Chae and Y. J. Chin

Spinal anaesthesia for Caesarean section: effect of Sprotte needle orientation 150
K. S. James, S. M. Stott, E. M. McGrady, F. J. Pearsall, W. T. Frame and D. Russell

Soft tissue anatomy within the vertebral canal in pregnant women 153
Y. Hirabayashi, R. Shimizu, H. Fukuda, K. Saitoh and T. Igarashi

Thrombelastography changes in pre-eclampsia and eclampsia .. 157
C. E. P. Orlikowski, D. A. Rocke, W. B. Murray, E. Gouws, J. Moodley, D. G. Kenoyer and S. Byrne

Alfentanil-mediated analgesia during propofol injection: no evidence for a peripheral action 162
I. J. Wrench, K. J. Girling and G. J. Hobbs

Psychophysical and electrophysiological responses to experimental pain may be influenced by sedation: comparison of the effects of a hypnotic (propofol) and an analgesic (alfentanil) 165
S. Petersen-Felix, L. Arendt-Nielsen, P. Bak, M. Fischer and A. M. Zbinden

Quantitative EEG in assessment of anaesthetic depth: comparative study of methodology 172
C. E. Thomsen and P. F. Prior

Spectral edge frequency of the electroencephalogram to monitor "depth" of anaesthesia with isoflurane or propofol 179
D. Schwender, M. Daunderer, S. Mulzer, S. Klasing, U. Finsterer and K. Peter

The reinforced laryngeal mask airway for dento-alveolar surgery 185
A. C. Quinn, A. Samaan, E. M. McAteer, E. Moss and M. Vucevic

Isoflurane waste gas exposure during general anaesthesia: the laryngeal mask compared with tracheal intubation ... 189
K. H. Hoerauf, C. Koller, W. Jakob, K. Taeger and J. Hobbhahn

Ventilatory effects of eltanolone during induction of anaesthesia: comparison with propofol and thiopentone 194
H. J. Spens and G. B. Drummond

Effect of anaesthesia on lung function in children with asthma 200
H. A. May, R. L. Smyth, H. C. Romer, P. H. Martin, A. R. Bowhay and D. P. Heaf

Ketamine and norketamine plasma concentrations after i.v., nasal and rectal administration in children 203
J.-M. Malinovsky, F. Servin, A. Cozian, J.-Y. Lepage and M. Pinaud

Determinants of duration of ICU stay after coronary artery bypass graft surgery 208
A. Michalopoulos, G. Tzelepis, G. Pavlides, J. Kriaras, U. Dafni and S. Geroulanos

Comparison of propofol and a propofol–methohexitone mixture for induction of day-case anaesthesia 213
N. Thompson and G. S. Robertson

ASA classification and perioperative variables as predictors of postoperative outcome 217
U. Wolters, T. Wolf, H. Stützer and T. Schröder

Time course of increased haemodilution in hypotension induced by extradural anaesthesia 223
D. Drobin and R. G. Hahn

LABORATORY INVESTIGATIONS

Combination of inhaled nitric oxide with i.v. nitroglycerin or with a prostacyclin analogue in the treatment of experimental pulmonary hypertension 227
L. J. Van Obbergh, M. Charbonneau and G. Blaise

Role of prostaglandins and nitric oxide on halothane-induced arteriolar dilatation in rat diaphragm 232
V. de Larminat, J. Boczkowski, B. Dureuil, E. Vicaut, R. Farinotti, M. Aubier and J.-M. Desmonts

Ketamine inhibits nitric oxide production in mouse-activated macrophage-like cells 238
M. Shimaoka, T. Iida, A. Ohara, N. Taenaka, T. Mashimo, T. Honda and I. Yoshiya

Potentiation of local lignocaine-induced sensory block by calcium channel blockers in rats 243
H. Iwasaki, H. Ohmori, K. Omote, M. Kawamata, S. Sumita, M. Yamauchi and A. Namiki

I.v. anaesthetic agents inhibit dihydropyridine binding to L-type voltage-sensitive Ca^{2+} channels in rat cerebrocortical membranes 248
K. Hirota and D. G. Lambert

Is inhibition of dopamine uptake relevant to the hypnotic action of i.v. anaesthetics? 254
H. Keita, J. B. Lecharny, D. Henzel, J. M. Desmonts and J. Mantz

Myocardial extraction of bupivacaine in anaesthetized sheep and by hearts of sheep and rats *in vitro* 257
H. Foth, T. Schröder, B. Kraus, J. P. Hering, F. M. B. Ensink and G. Hellige

SHORT COMMUNICATIONS

Nitrous oxide produces a non-linear reduction in thiopentone requirements 265
T. Katoh and K. Ikeda

Evaluation of two warming systems after cardiopulmonary bypass 268
E. L. Janke, S. N. Pilkington and D. C. Smith

Calcium homeostasis during i.v. infusion of 1.5% glycine in anaesthetized pigs 271
D. Chassard, K. Berrada, J. P. Tournadre and P. Boulétreau

CASE REPORTS

Cardiac arrest after Caesarean section under subarachnoid block 274
T. J. Scull and F. Carli

Severe systemic cholesterol embolization after open heart surgery 277
V. Piriou, J.-Ph. Claudel, O. Bastien, S. Ross and J.-J. Lehot

ABSTRACTS

Proceedings of the Anaesthetic Research Society, Nottingham Meeting, March 28–29, 1996 281P

CORRESPONDENCE

CSF progesterone and spread of subarachnoid anaesthesia in pregnancy 293
Sevoflurane 294
Removal of extradural catheters 295
Optimal intracuff pressures with the laryngeal mask 295
Prevention of cardiovascular response to tracheal intubation 296
Tea-total 297
Analgesia: dose-effect or pre-emptive effect? 297
Convective warming after CABG 298
Adequate general anaesthesia—what are we trying to achieve? 299
Spinal anaesthesia for Caesarean section 301

BOOK REVIEWS

Regional Anesthesia: An Illustrated Procedural Guide, 2nd Edn 303
ABC of Brainstem Death, 2nd Edn 303
Recent Advances in Anaesthesia and Analgesia–19 303

SEPTEMBER

EDITORIALS: I: Complications of hysteroscopic treatments of menorrhagia 305
K.M. Williamson, M.C. Mushambi

II What future is there for predicting difficult intubation? 309
P. Charters

CLINICAL INVESTIGATIONS

Sternomental distance as the sole predictor of difficult laryngoscopy in obstetric anaesthesia 312
S. A. L. Ramadhani, L. A. Mohamed, D.A. Rocke and E. Gouws

Respiratory mechanics after abdominal surgery measured with continuous analysis of pressure, flow and volume signals 317
A. F. Nimmo and G. B. Drummond

Thoracic impedance used for measuring chest wall movement in postoperative patients 327
G. B. Drummond, A. F. Nimmo and R. A. Elton

Preoxygenation in children using expired oxygraphy 333
P. J. Butler, H. M. Munro and M. B. Kenny

Intubating conditions and time course of rocuronium-induced neuromuscular block in children 335
T. Fuchs-Buder and E. Tassonyi

Influence of induction technique on intubating conditions after rocuronium in adults: comparison with rapid-sequence induction using thiopentone and suxamethonium 339
H. J. Sparr, S. Giesinger, H. Ulmer, M. Hollenstein-Zacke and T. J. Luger

Spinal anaesthesia with 0.5% hyperbaric bupivacaine in elderly patients: effect of site of injection on spread of analgesia 343
B. Th. Veering, P. M. Ter Riet, A. G. L. Burm, R. Stienstra and J. W. van Kleef

Inflammatory changes after extradural anaesthesia may affect the spread of local anaesthetic within the extradural space 347
T. Igarashi, Y. Hirabayashi, R. Shimizu, H. Mitsuhata, K. Saitoh, H. Fukuda, A. Konishi and H. Asahara

Acid–base state of cerebrospinal fluid during pregnancy and its effect on spread of spinal anaesthesia 352
Y. Hirabayashi, R. Shimizu, K. Saitoh, H. Fukuda and T. Igarashi

Nausea and vomiting after cardiac surgery 356
C.R. Grebenik and C. Allman

Cardiopulmonary bypass-induced changes in plasma concentrations of propofol and in auditory evoked potentials 360
E. Hammarén, A. Yli-Hankala, P. H. Rosenberg and M. Hynynen

On-line estimation of left ventricular stroke volume using transoesophageal echocardiography and acoustic quantification 365
C.-A. Greim, N. Roewer, G. Laux and J. Schulte am Esch

Patient-controlled sedation for cataract surgery using peribulbar block 370
C. K. Pac-Soo, S. Deacock, G. Lockwood, C. Carr and J. G. Whitwam

LABORATORY INVESTIGATIONS

Synergistic interactions between midazolam and alfentanil in isolated neonatal rat spinal cord 375
J. Feng and J. J. Kendig

Differential effects of ketamine and pentobarbitone on acetylcholine release from the rat hippocampus and striatum 381
K. Sato, J. Wu, T. Kikuchi, Y. Wang, I. Watanabe and F. Okumura

I.v. anaesthetic agents do not interact with the verapamil binding site on L-type voltage-sensitive Ca^{2+} channels 385
K. Hirota and D. G. Lambert

Flow cytometry evaluation of the *in vitro* influence of four i.v. anaesthetics on respiratory burst of neutrophils 387
J. Heine, M. Leuwer, D. Scheinichen, L. Arseniev, K. Jaeger and S. Piepenbrock

Atrioventricular conduction during adenosine-induced hypotension in dogs anaesthetized with sevoflurane 393
R. Ishii, S. Akazawa, R. Shimizu, Y. Nakaigawa, S. Ikeno and R. Yamato

Effects of fentanyl, nitrous oxide, or both, on baroreceptor reflex regulation in the cat 399
Ö. Lennander, B-Å. Henriksson, J. Martner and B. Biber

Effect of sevoflurane anaesthesia on plasma concentrations of glutathione S-transferase 404
D. C. Ray, R. Bomont, A. Mizushima, T. Kugimiya, A. Forbes Howie and G. J. Beckett

Normovolaemic haemodilution attenuates cardiac depression induced by sodium bicarbonate in canine metabolic acidosis 408
M. Tanaka, T. Nishikawa and T. Mizutani

Inhalation of a nitric oxide synthase inhibitor to a hypoxic or collapsed lung lobe in anaesthetized pigs: effects on pulmonary blood flow distribution 413
F. Fredén, J. E. Berglund, A. Reber, M. Högman and G. Hedenstierna

SHORT COMMUNICATIONS

Influence of patient position on withdrawal forces during removal of lumbar extradural catheters 419
G. N. Morris, B. B. Warren, E. W. Hanson, F. J. Mazzeo and D. J. DiBenedetto

Effect of oral antihistamine premedication on mivacurium-induced histamine release and side effects 421
A. Doenicke, J. Moss, W. Lorenz, M. Mayer, J. Rau, A. Jedrzejewski and P. Ostwald

Edrophonium and human plasma cholinesterase combination for antagonism of mivacurium-induced neuromuscular block 424
M. Naguib, A. H. Samarkandi, H. S. Bakhamees, A. Turkistani and S. W. Alharby

Beneficial effects of dexmedetomidine on ischaemic myocardium of anaesthetized dogs 427
P. M. H. J. Roekaerts, F. W. Prinzen and S. De Lange

CASE REPORT

An iatrogenic arterial foreign body 430
U. S. Shah, R. Downing and I. Davis

EQUIPMENT

An effective method of scavenging nitric oxide 432
S. Squire, R. Kightley and A. J. Petros

CORRESPONDENCE

The care of patients and transport by air 435
Effect of naloxone on nitrous oxide analgesia 435
Difficult tracheal intubation 436
Cost of volatile anaesthetic agents 437
Erratum 437

BOOK REVIEWS

Clinical Orthopedic Anesthesia. 438
Clinical Anesthesiology, 2nd Edn. 438
Baillière's Clinical Anaesthesiology: International Practice and Research, vol. 10, No. 1. The Lung in Anaesthesia and Intensive Care. 439
Chemical Warfare Agents. Toxicology and Treatment. 439

OCTOBER

EDITORIAL: Ketamine: its mechanism(s) of action and unusual clinical uses 441
K. Hirota and D. G. Lambert

CLINICAL INVESTIGATIONS

Morphine consumption in patients receiving rectal paracetamol and diclofenac alone and in combination 445
J. E. Montgomery, C. J. Sutherland, I. G. Kestin and J. R. Sneyd

Postoperative pulmonary function after laparoscopic and open cholecystectomy 448
A. J. Karayiannakis, G. G. Makri, A. Mantzioka, D. Karousos and G. Karatzas

Influence of motivation of care providers on the incidence of postoperative hypoxaemia in the recovery room 453
A. T. Rheineck-Leyssius, C. J. Kalkman and A. Trouwborst

Extradural clonidine combined with sufentanil and 0.0625% bupivacaine for analgesia in labour 458
D. Chassard, L. Mathon, F. Dailler, F. Golfier, J. P. Tournadre and P. Boulétreau

Antiemetic effect of subhypnotic doses of propofol after thyroidectomy 463
P. Ewalenko, S. Janny, M. Dejonckheere, G. Andry and C. Wyns

Use of a mechanical simulator for training in applying cricoid pressure 468
N. Ashurst, C. C. Rout, D. A. Rocke and E. Gouws

Endotoxaemia and postoperative hypermetabolism in coronary artery bypass surgery: the role of ketanserin ... 473
H. M. Oudemans-van Straaten, P. G. M. Jansen, H. te Velthuis, Chr. P. Stoutenbeek, D. F. Zandstra, S. J. H. van Deventer, A. Sturk, Ch. R. H. Wildevuur and L. Eijsman

Influence of different volume therapy regimens on regulators of the circulation in the critically ill 480
J. Boldt, M. Mueller, T. Menges, M. Papsdorf and G. Hempelmann

Potency and time course of action of rocuronium during desflurane and isoflurane anaesthesia 488
N. Kumar, R. K. Mirakhur, M. J. J. Symington and G. J. McCarthy

Neuromuscular blocking action of suxamethonium after antagonism of vecuronium by edrophonium, pyridostigmine or neostigmine 492
N. W. Fleming, S. Macres, J. F. Antognini and J. Vengco

Is recovery of neuromuscular transmission complete after the use of neostigmine to antagonize block produced by rocuronium, vecuronium, atracurium and pancuronium? 496
M. J. Baurain, F. Hoton, A. A. d'Hollander and F. R. Cantraine

Chronic carbamazepine therapy does not influence mivacurium-induced neuromuscular block 500
A. Spacek, F. X. Neiger, C. K. Spiss and H. G. Kress

LABORATORY INVESTIGATIONS

Thiobarbiturates suppress depolarization-induced contraction of vascular smooth muscle without suppression of calcium influx 503
R. Kitamura, M. Kakuyama, K. Nakamura, I. Miyawaki and K. Mori

Comparative actions of propofol and thiopentone on cell membranes of isolated guineapig ventricular myocytes.. 508
F. Sakai, M. Hiraoka and K. Amaha

Dose–response curve for anaesthetics based on the Monod–Wyman–Changeux model 517
T. Iwai, H. Kihara, K. Imaiand and M. Uchida

Visual evoked potentials and nitrous oxide-induced neuronal depression: role for benzodiazepine receptors ... 522
M. Dzoljic, W. Erdmann and M. R. Dzoljic

Pancuronium increases pulmonary arterial pressure in lung injury 526
H. Du, R. Orii, Y. Yamada, M. Hayashita, N. Kin, K. Suwa and K. Hanaoka

Efficacy of intraoperative heat administration by ventilation with warm humidified gases and an oesophageal warming system 530
E. Beck, M. Langer, P. Di Mauro and P. Prato

Extraction of nitric oxide and nitrogen dioxide from an oxygen carrier using molecular sieve 5A 534
B. B. Poulton, L. Foubert, J. Klinowski, R. D. Latimer, P. R. Knowles and A. Vieylsteke

Sevoflurane degradation to compound A in anaesthesia breathing systems 537
D. D. Cunningham, S. Huang, J. Webster, J. Mayoral and R. W. Grabenkort

SHORT COMMUNICATION

Evaluation of the usefulness of intrathecal bupivacaine infusion for analgesia after hip and knee arthroplasty. 544
L. Niemi, M. Pitkänen, P. Dunkel, E. Laakso and P. H. Rosenberg

CASE REPORTS

Bilateral compartment syndrome complicating prolonged lithotomy position 546
J. Tuckey

Extradural anaesthesia for Caesarean section in a patient with moyamoya disease 550
W. D. Ngan Kee and C. D. Gomersall

Unrecognized "crack" cocaine abuse in pregnancy 553
D. Campbell, M. J. A. Parr and L. E. Shutt

Heparinase-guided thrombelastography in an anticoagulated parturient 556
D. C. Abramson, E. I. Abouleish, E. G. Pivalizza, S. L. Luehr, T. Myers and M. D. Phillips

CORRESPONDENCE

Failed tracheal intubation 559
Perioperative mucosal pH_i in orthotopic liver transplantation 560
Volatile anaesthetics and neuromuscular block 561
Cusum: a statistical method to evaluate competence in practical procedures 562

BOOK REVIEWS
Critical Care: Standards, Audit and Ethics 563
Comprehensive Human Physiology from Cellular Mechanisms to Integration, vols 1 and 2 563
Critical Care of Infants and Children 564

Neuromuscular Transmission. Fundamentals of Anaesthesia and Acute Medicine Series 565

Errata 566

NOVEMBER

EDITORIAL: Does anaesthesia have long-term consequences? 569
G. R. Masterson and J. M. Hunter

CLINICAL INVESTIGATIONS
Sleep after laparoscopic cholecystectomy 572
S. Rosenberg-Adamsen, M. Skarbye, G. Wildschiødtz, H. Kehlet and J. Rosenberg
Gasless laparoscopic cholecystectomy: comparison of postoperative recovery with conventional technique 576
A.-M. Koivusalo, I. Kellokumpu and L. Lindgren
Haemodynamic and metabolic response to endovascular repair of infra-renal aortic aneurysms 581
B. R. Baxendale, D. M. Baker, A. Hutchinson, T. A. M. Chuter, P. W. Wenham and B. R. Hopkinson
Comparison of caudal bupivacaine and diamorphine with caudal bupivacaine alone for repair of hypospadias 586
A. A. Kelleher, A. Black, S. Penman and R. Howard
Effect of hypothermia on rectal mucosal perfusion in infants undergoing cardiopulmonary bypass 591
P. D. Booker, D. P. Prosser and R. Franks
Gut mucosal perfusion in neonates undergoing cardiopulmonary bypass 597
P. D. Booker, H. Romer and R. Franks
Effects of dopamine on oxygen consumption and gastric mucosal blood flow during cardiopulmonary bypass in humans 603
W. Karzai, M. Günnicker, G. Scharbert, U. M. Vorgrimler-Karzai and H. -J. Priebe
Effects of rocuronium and vecuronium on intracranial pressure, mean arterial pressure and heart rate in neurosurgical patients 607
W. M. Schramm, K. Strasser, A. Bartunek, H. Gilly and C. K. Spiss
Interactions between suxamethonium and mivacurium or atracurium 612
K. S. Kim, D. J. Na and S. U. Chon
Midlatency auditory evoked potentials as indicators of perceptual processing during general anaesthesia 617
N. A. M. de Beer, J. C. van Hooff, C. H. M. Brunia, P. J. M. Cluitmans, H. H. M. Korsten and J. E. W. Beneken
Effect of racemic mixture and the (S+)-isomer of ketamine on temporal and spatial summation of pain 625
L. Arendt-Nielsen, J. Nielsen, S. Petersen-Felix, T. W. Schnider and A. M. Zbinden
Normal saline i.v. fluid load decreases uterine activity in active labour 632
T. G. Cheek, P. Samuels, F. Miller, M. Tobin and B. B. Gutsche
Fuzzy logic control of mechanical ventilation during anaesthesia 636
J. Schäublin, M. Derighetti, P. Feigenwinter, S. Petersen-Felix and A. M. Zbinden
An oral sodium citrate–citric acid non-particulate buffer in humans 642
J. J. Hauptfleisch and K. A. Payne

LABORATORY INVESTIGATIONS
Effects of local anaesthetics on carrageenan-evoked inflammatory nociceptive processing in the rat 645
J. Buritova, D. Fletcher, P. Honoré and J.-M. Besson
Myocardial effects of eltanolone in hamsters with hypertrophic cardiomyopathy 653
P. Ruel, J.-L. Hanouz, B. Riou, Y. Lecarpentier and P. Coriat
Comparison of the effects of controlled ventilation with 100% oxygen, 50% oxygen in nitrogen, and 50% oxygen in nitrous oxide on responses to venour air embolism in pigs 658
J. Kyttä, P. Tanskanen and T. Randell

SHORT COMMUNICATION
Use of the fibrescope–video camera system for difficult tracheal intubation 662
K. Aoyama, I. Takenaka, T. Sata and A. Shigematsu

CASE REPORTS
General anaesthesia for Caesarean section in a parturient with Noonan's syndrome 665
H. A. McLure and S. M. Yentis
Use of rocuronium in a pregnant patient with an open eye injury, receiving magnesium medication, for preterm labour 669
R. R. Gaiser and E. H. Seem
Isoflurane for sedation in a case of congenital myasthenia gravis 672
C. McBeth and T. G. L. Watkins
Orthotopic liver transplantation in two patients with hypertrophic obstructive cardiomyopathy 675
I. D. Harley, E. F. Jones, G. Liu, P. R. McCall and P. L. McNicol

COMMENTARY
Permissive hypercapnia and gas exchange in lungs with high $\dot{Q}s/\dot{Q}t$: a mathematical model 678
C. J. Joyce and K. G. Hickling

ABSTRACTS
Proceedings of the Anaesthetic Research Society, Birmingham Meeting, July 11–12, 1996 ..... 684P

CORRESPONDENCE
Volumetric analysis of aeration in the lungs during general anaesthesia 697
Failed intubation during obstetric anaesthesia 698
The intensive care unit cost of surviving and dying 698
Aortic stent surgery 699
A complication of intra-arterial shunting during carotid endarterectomy 699
Transoesophageal echocardiography in anaesthesia and intensive care 700
Haemodilution induces a hypercoagulable state 700

Erratum 701

DECEMBER

EDITORIALS: I Ether anaesthesia comes to London. December 1846 705
A. A. Spence

II Is it always necessary to antagonize residual neuromuscular block? Do children differ from adults? 707
J. M. Hunter

CLINICAL INVESTIGATIONS

Dose–response relationships for neostigmine antagonism of rocuronium-induced neuromuscular block in children and adults 710
M. Abdulatif, H. Mowafi, Al-Ghamdi and M. El-Sanabary

Comparison of the effects of mivacurium on the diaphragm and geniohyoid muscles 716
G. d'Honneur, V. Slavov, J.-C. Merle, K. Kirov, J.-M. Rimaniol, L. Sperry and P. Duvaldestin

Concentration-related effects of propofol on the auditory evoked response 720
M. A. Tooley, G. L. Greenslade and C. Prys-Roberts

Comparison of patient-controlled sedation with either methohexitone or propofol 727
S. K. Hamid, N. McCann, L. McArdle and A. J. Asbury

Local anaesthesia to the airway reduces sedation requirements in patients undergoing artificial ventilation 731
A. Mallick, S. N. Smith and A. R. Bodenham

Comparative effects of thiopentone and propofol on respiratory resistance after tracheal intubation 735
R. S. C. Wu, K. C. Wu, D. C. W. Sum and M. J. Bishop

Propofol or halothane anaesthesia for children with asthma: effects on respiratory mechanics 739
W. Habre, I. Matsumoto and P. D. Sly

Hepatocellular integrity during and after isoflurane and halothane anaesthesia in surgical patients 744
P. Tiainen and P. H. Rosenberg

Standardization of non-invasive impedance cardiography for assessment of stroke volume: comparison with thermodilution 748
H. H. Woltjer, H. J. Bogaard, G. J. Scheffer, H. I. van der Spoel, M. A. J. M. Huybregts and P. M. J. M. de Vries

Lack of specific renal haemodynamic effects of different doses of dopamine after infrarenal aortic surgery 753
A. R. J. Girbes, A. G. Lieverse, A. J. Smit, D. J. van Veldhuisen, J. H. Zwaveling, S. Meijer and W. D. Reitsma

LABORATORY INVESTIGATIONS

Antinociception by intrathecal midazolam involves endogenous neurotransmitters acting at spinal cord delta opioid receptors 758
C. S. Goodchild, Z. Guo, A. Musgreave and J. P. Gent

A model of the first pass passage of drugs from i.v. injection site to the heart—parameter estimates for lignocaine in the sheep 764
R. N. Upton

Measurement of cardiac output by transoesophageal Doppler echocardiography in anaesthetized horses: comparison with thermodilution 773
L. E. Young, K. J. Blissitt, D. H. Bartram, R. E. Clutton, V. Molony and R. S. Jones

Effect of halothane, isoflurane and desflurane on lower oesophageal sphincter tone 781
D. Chassard, J. P. Tournadre, K. R. Berrada, B. Bryssine and P. Bouletreau

SHORT COMMUNICATIONS

Distinguishing cerebrospinal fluid from saline used to identify the extradural space 784
B. A. Z. El-Behesy, D. James, K. F. Koh, N. Hirsche and S. M. Yentis

Use of a pneumatic tourniquet induces changes in central temperature 786
J.-P. Estebe, A. Le Naoures, Y. Malledant and C. Ecoffey

CASE REPORTS

A modification of sub-mental intubation 789
J. D. Green and U. J. Moore

Hepatic rupture complicating eclampsia in pregnancy 792
S. Karadia, C. Walford, M. McSwiney and M. S. Nielsen

Tolerance of laparoscopy for resection of phaeochromocytoma 795
C. Mann, B. Millat, G. Boccara, J. Atger and P. Colson

COMMENTARIES

Randomization is important in studies with pain outcomes: systematic review of transcutaneous electrical nerve stimulation in acute postoperative pain 798
D. Carroll, M. Tramèr, H. McQuay, B. Nye and A. Moore

Guest Reviewers for 1996 804

CORRESPONDENCE

Unexpected high spinal block in obstetrics 806
Is Doppler monitoring mandatory in laparoscopic surgery? 807
Fuzzy logic control of inspired volatile anaesthetic concentrations 807
Hypotension during subarachnoid anaesthesia 808
Haemodilution induces a hypercoagulable state 809
Haemodynamic and neuroendocrine responses after pneumoperitoneum during cholecystectomy 810
Glycine absorption and hypocalcaemia 810
